WORK EXPERIENCE

Marketing Assistant | Apartment Home Living, Austin, Texas | May 2010 – Present

- Execute various social media campaigns on YouTube, Google, Foursquare, as well as link disavowment tactics and other white hat strategies for organic development and traffic defense
- Focus on content creation for SEO campaigns, creating over ten thousand videos, thousands of KML for Google Maps, and thousands of reference markers on Foursquare
- Maintain an organic traffic growth that exceeded our yearly targets through constant diligence and trial and error
- Collaborate to aggressively target keywords and work with engineers to optimize long tail searches
- Assist in quality assurance testing (noted for ability to find odd bugs that escape most testing)
- Support customer and B2B client questions

IT Assistant | E-Communication Advantage, Austin, Texas | August 2007 – December 2009

- Rewired a new office space to accommodate over 70 work stations for phone and internet
- Assisted in the transition from analog to VOIP phone environment
- Fulfilled all technical reports for the Sales and Operations Teams using Crystal Reports and FoxPro
- Was in charge of regular and emergency maintenance of all equipment and technical issues
- Facilitated all functions of a Network Administrator, System Administrator, Database Administrator, and Technical Support

Programming Intern | ProDoc Corporation, Universal City, Texas | May 2006 – August 2006

- Learned Database Key Management Software IDE (Clarion)
- Developed crossover training manual for C/C++ programmers to Clarion environment

- Designed and implemented tools and objects in sister (template) language for Clarion
- Troubleshoot bugs in both hardware and software
- Rewrote legacy code that didn't meet naming and other coding standards

Sales Representative | EarthLink (ISP) San Antonio, Texas | September 2004 – August 2005

- Assisted new customers with specific details about various services from dial up to basic and advanced home networking technologies
- Helped existing customers with account and service issues
- Consistently noted one of the highest in customer satisfaction rates
